## CLIPPED THEIR WINGS.

Secretary Root Goes After Disorderly Cadets at West Point.

## FIVE ARE SUMMARILY DISMISSED.

Suspension Dealt Out to Half Dozen More—Trouble Grew Out of Hazing and the Efforts To Suppress It.

Washington, May 21.—Colonel Mills, superintendent of the military academy, had a long consultation with the secretary of war relative to recent disorders among the cadets at West Point. The papers in the cases of the cadets who have been tried for offenses against authority have been in the department for some time, but have not been acted upon. The present difficulty grows out of the attempt to suppress hazing and the restrictions that have been made in this direction since Colonel Mills became superintendent.

Secretary Root approved the action of the board of officers at West Point which recommended the dismissal of five cadets and the suspension of six others. This sustains the course of Colonel Mills and the other officers in the recent disturbances at the academy. The names of the cadets dismissed and suspended will be announced at the military academy at noon Wednesday.

### Coal Tax a Blight.

New York, May 21.—Hamilton Smith, president and general manager of the Stoke-on-Trent Colliery company, limited, of Manchester, England, has arrived here on his way to Pittsburgh on business. Speaking of the recently imposed export tax of a shilling a ton on British coal, he said: "The tax is retrogressive action and one which will in a short time dislocate trade and act as a detriment on commercial activity. The British government is under the impression that the foreign consumer will pay. That, however, is already proving to be a commercial fallacy. The foreign consumer is not going to pay such a tax for his coal. He buys his coal in the cheapest market."

### Defended Her Honor.

Washington, May 21.—The mystery attending the killing of James Seymour Ayres, a census office clerk, at the Kenmore hotel May 15 was solved by a voluntary confession from Mrs. Lulu I. Bonine, married, and a guest at the house. Mrs. Bonine says she fired the shots which ended Ayres' life. Mrs. Bonine, whose husband is a salesman for a wholesale drug house in Chicago, says Ayres enticed her to his room, and, flourishing revolver, demanded that she submit to his wishes. In the struggle that followed the gun was discharged three times, Ayres receiving each shot. Mrs. Bonine is held.

### Mrs. Bonine Held.

Washington, May 21.—The coroner's jury that has been investigating the murder of James S. Ayres, the census clerk, returned a verdict to the effect that Ayres was killed during a conflict between himself and Mrs. Lola Ida Henri Bonine. The woman was held for the grand jury.

### Across the Sea in a Canoe.

Victoria, B. C., May 21.—J. C. Vose, a seafaring man who two years ago started from here in the yacht Xora for Paris, but abandoned the trip at Panama, leaves on a similar expedition, but this time in an Indian war canoe which has been decked over and fitted with sails and made thoroughly seaworthy. He will be accompanied by Norman Luxton, a newspaper man formerly of Winnipeg and Milwaukee. They will visit the South seas, Australia, South Africa and Great Britain.

### Morgan in France.

Paris, May 21.—President Loubet of France will receive J. Pierpont Morgan in special audience. The interview was requested by the American ambassador, General Horace Porter, to afford Mr. Morgan an opportunity of thanking the president for the decoration of the Legion of Honor. It is reported that the interview is significant as the first step toward the promotion of a great financial enterprise in which American capitalists largely figure.

### Germans Apologized.

London, May 21.—The government was questioned in the house of commons on the subject of the British tug Ewo incident at Tien Tsin when two Chinese on board that vessel were fatally shot by Germans guarding a bridge after the tug had fouled it. The under foreign secretary, Lord Cranborne, in reply, said Field Marshal Von Waldersee had expressed his regret and had promised to take measures to prevent the recurrence of similar incidents.

## MYSTERIOUSLY MISSING Is a Package Containing a Nice Lump of Money.

Kansas City, May 21.—A package containing \$8,000 in currency consigned by registered mail by the National Bank of Commerce to a bank in Great Bend, Kan., has disappeared and detectives are working on the theory that it was stolen by a postal clerk. The mail pouch indicated that it had been tampered with.

### Tariff on Potteryware.

Trenton, N. J., May 21.—The United States industrial commission's sub-committee on manufactures and business had four persons before them at their session in this city. These men represented the working potters of Trenton. The main speaker was William Clayton, who read a statement which set forth the men's views on different subjects. The paper advocated a stricter enforcement of the present tariff laws relating to potteryware and charged that the present duty was in many instances escaped, in part at least, by lump invoices and by the failure of the customs authorities to thoroughly examine packages.

### Officer's Pay and Attachment.

Washington, May 21.—Justice Gray has announced the opinion of the United States supreme court in the case of Robert W. Shuford, a retired captain in the army. The case involves the question of the exemption of his salary as an officer of the army with an order from the court to pay alimony to a divorced wife. The courts of the district of Columbia held the salary to be exempt on the ground that it is a gratuity from the government and could not be so attached. The opinion reversed these decisions, holding salary under such circumstances to be subject to such an attachment.

### Lost in the Flood.

Victor, Colo., May 21.—John M. Glover, an ex-congressman from the St. Louis district, is reported to have met his death in the floods near Love, Colo., 10 miles from here, on Sunday last. A horse with a saddle was found in that vicinity and it is thought to have belonged to Glover who is missing. Just before the big flood reached the little hamlet of Love, a man was seen riding a horse down the gulch. He was in the direct path of the rearward wall of water that went tearing down the ravine. This man was supposed to be Glover.

### Ordered Out of China.

Washington, May 21.—The post office department cabled instructions to China directing all its representatives in the military postal service there to leave on the first available transport. H. M. Robinson of Atlanta, superintendent of the service there, has been assigned to duty in the Philippines, but all the others will return to the points whence they were assigned to China. This marks the close of the United States military postal service in China.

### Porto Ricans Leave for Hawaii.

San Juan de Porto Rico, May 21.—Nine hundred immigrants embarked on the steamer California at Guanica for Hawaii, leaving 400 more ready to sail. Joyous manifestations accompanied the departure of the emigrants. Fourteen weddings and 48 baptisms took place. The emigration agents are spending, it is estimated, about \$10,000 in recruiting and maintaining the emigrants. Favorable reports from Hawaii have caused a continuation of the emigration.

### New Incorporations.

Columbus, O., May 21.—Dollar Savings Bank company, Akron, \$50,000; Sandusky County Building and Loan company, Fremont, increased from \$300,000 to \$500,000; E. D. Box & Label company, Cleveland, increase from \$100,000 to \$200,000; Palace club of Dayton; Young Men's Christian association of Ironton; Knights of Fidelity, Cincinnati; Riggs Restaurant and Hotel company, Cincinnati, \$10,000.

### Goes to Ohio State.

Philadelphia, May 21.—Dr. James Edward Haggerty, instructor in economics in the Wharton school of the University of Pennsylvania, has received an appointment as assistant professor of economics at the Ohio State university, Columbus, and will begin work in his new position in September. Dr. Haggerty, who is a graduate of the University of Illinois, took a post graduate course at Pennsylvania university.

### Sun Dancers Revolt.

Lander, Wyo., May 21.—An Indian outbreak is imminent on the Shoshone reservation. There are 600 Arapahoes who have denied the authority of the agent, Captain Nickerson, who refused them permission to hold their annual sun dance and denied them passes. Trouble has been brewing some time from other causes also. Captain Nickerson has applied to the Indian department for troops.

## MANY FALLING IN LINE

Officials of the International Machinists Report Progress in Strike.

## THOUSANDS, HOWEVER, STILL OUT.

Storm Centers in the Vicinity of Cincinnati and on the Pacific Coast—Strikes Continue to Date.

Washington, May 21.—The storm centers of the general strike of machinists throughout the country are in the vicinity of Cincinnati, and on the Pacific coast coast. The number of firms that have signed agreements was augmented by about a hundred, which brings the aggregate of the establishments making the concessions to 1,000 in round numbers during the past three or four days. Save in one or two instances, as at Scranton, Pa., the allied trades have not yet been affected. It is claimed at the general headquarters of the machinists, however, that where agreements are not soon affected many of the men in the allied trades will go out in the individual shops where the machinists are already out. The estimate of President O'Connell of the National Association of Machinists as to the number of strikers remains at 50,000. The executive board of the association is in session here watching the progress of the strike.

Reports show that only three railroads in the United States are now affected by the strike, namely the Central Vermont, Lehigh Valley and Delaware, Lackawanna and Western. The situation, according to reports received at headquarters is summarized as follows: Practically all the trouble between the Kansas City and the Pacific coast has been adjusted. At Kansas City about 600 men are out but a few small firms have signed the agreements. San Francisco reports an almost complete tie-up. About 6,000 men have struck. Agreements have been reached there, however, with 11 firms outside of the Union and Dresden Iron plants and the Fulton Ship company. At Seattle 700 men have struck. There are 500 strikers at Tacoma, Wash. The trouble has been adjusted at most of the other Pacific coast points.

At Albany, N. Y., about 2,500 men have struck. A settlement has been reached with the balance, which involves about 50 per cent of the firms. In Chicago all but several of the small shops have adjusted matters. About 2,000 men are out in Boston. Many men are out in the Ohio cities of Cincinnati, Hamilton, Dayton and Alliance. In Cincinnati a dozen firms have made the concessions since Saturday and about 3,000 men are out. Alliance reports a complete tieup with 500 men striking. Only a few men are out in Cleveland, practically a general settlement has been effected there. All the firms at Columbus, O., and Chicago Heights, Ills., have made agreements.

### Situation at Cincinnati.

Cincinnati, May 21.—About 200 machinists who left their shops Monday have returned to work in the smaller shops, which have agreed to the demands of the men. In a few of the shops which had signed the agreement, as it is called, the men are still out because the employers insisted on conditions not recognized by the machinists. There are now 18 shops where machinists are at work and two more shops signed the agreement. The machinists who have struck are rapidly organizing their fellow workmen who struck with them into the various unions to which they are eligible. The leaders are well satisfied with the outlook.

### Only Two Firms Refuse.

New York, May 21.—At the headquarters of District 25, International Association of Machinists, it was said that only two firms of any importance in this city have refused to grant the request of the machinists for a 9-hour day. The two firms are the R. Hoe Printing Press company, employing 700 machinists, and the Garvin Machine company, where 500 men are on strike.

### Brooks Machinists Quit.

DunRirk, N. Y., May 21.—Seven hundred machinists employed in the Brooks Locomotive works struck for a 9-hour day and 12½ per cent increase in pay. All other departments of the shop are running. The strike of machinists will close the works if an agreement is not soon reached.

### Transports For Sale.

Washington, May 21.—A board of survey has been ordered to report upon the value of the transports McClellan, Sedgewick and Crook, belonging to the West Indian transport service which is to be abandoned July 1. After the report of the board, the transports will be offered for sale.

## FITZJOHN PORTER.

Aged Army Officer Has Passed Away. His Career.

New York, May 21.—General Fitzjohn Porter died at his home in Morristown, N. Y., from chronic diabetes. He was 80 years of age.

General Porter served with distinction in the earlier days of the civil war, but at the second battle of Bull Run, his corps for some reason did not advance as it had been ordered to do. General Porter was arraigned before a court martial at Washington, charged with disobeying orders, and in January, 1863, he was cashiered and "forever disqualified from holding any office of trust or profit under the government of the United States." The justice of the verdict was the subject of a long and heated controversy. During President Cleveland's term, General Porter was restored to the army as colonel.

### Russia Opposes Expeditions.

St. Petersburg, May 21.—Germany's reported desire to send a new expedition against the Boxers is looked upon at the Russian capital as detrimental to the prospect of peace. One newspaper says: "We don't understand and we have no confidence in these penal, piratical expeditions and only understand peaceful methods. It has needed much confidence in the triumph of common sense and in the triumph of political peace over a policy of adventures and vagabondages for Russia to remain calm and cool during these long months of fruitless deliberations and criminal expeditions, complicating a situation which should long ago have ended."

### Liberals' Move Failed.

London, May 21.—The house of commons, by 300 to 123 votes, rejected the motion of Sir Henry Fowler, Liberal, which was supported by the Liberal leaders, disapproving the budget proposals. Mr. Balfour, the government leader, announced that the government would regard the adoption of the motion as a vote of non-confidence. The Irish abstained from voting. Lord Cranborne proceeded to make a general statement on the Chinese question, saying the government's chief concern at present was to moderate so far as possible the demands for indemnity and so they did not infringe on commercial interests.

### Union Pacific Bonds.

New York, May 21.—An application of the Union Pacific railway to the stock exchange has been posted at the exchange to list \$100,000,000 first mortgage collateral trust convertible four per cent bonds. This is the total amount of these bonds authorized by the company, including the \$40,000,000 already sold to finance the Southern Pacific purchase. The application as posted does not mention the collateral for the bonds or the purpose of the \$60,000,000 bonds which have not yet been issued and which it has been rumored were intended to finance the purchase of Northern Pacific.

### Iron Workers and Steel Trust.

Milwaukee, May 21.—What is considered perhaps the most important convention in the history of the Amalgamated Association of Iron and Steel Workers began here with 250 delegates present. The convention immediately went into secret session. It is probable that nothing will develop the first week of the convention which will have any bearing on the relations of the organization with the steel trust. This will come out later after the reports of the committees have been completed.

### Governor Nash and Party.

Salt Lake, May 21.—Governor Nash and party returning east from the launching of the battleship Ohio at San Francisco, devoted the entire day in Salt Lake to sight seeing. No formal program of entertainment was carried out. The distinguished OIahans, escorted by Governor Wells of Utah, Senators Rawlins and Kearns, former Governor Thomas and other members of the reception committee, were driven to points of interest in and about the city.

### Is the Cup Challenger a Tub?

Ryde, Isle of Wight, May 21.—The two Shamrocks started over a course as nearly as possible similar to those of the windward and leeward course of the contests for the Americas cup. Starting from No Man Fort, the course was laid 15 miles to windward and return. A moderate varying breeze of eight to 12 knots was blowing and the water was smooth. The race was close. The Shamrock I. won by barely half a minute.

### Indiana Coal Trust.

Terre Haute, Ind., May 21.—The promoters of the Indiana coal mining trust are making rapid headway. There are 160 mines in the state, of which about 25 are block coal. The financing of the Indiana company, with a capital stock of not less than \$10,000,000 has been provided for. It will be an Indiana corporation.

## TO SQUELCH POLYGAMY

The Presbyterians Want an "Anti" Amendment to the Constitution.

## FEAR ITS GROWTH IN OTHER STATES

Consideration of Church Board Reports the Order of the Day At the General Assembly—Action Taken.

Philadelphia, May 21.—The consideration of church board reports was continued at the session of the Presbyterian general assembly. The special orders for the day were the reports of the committees on home missions, aid for colleges and church erection. Addresses were made by the chairmen of the committees and boards and the assembly was urged to exert itself to the utmost in behalf of the various church institutions. Every effort is being made by the assembly to dispose of all of the routine matters before debate on revision begins in order that when that subject is settled, there may be little unfinished business to consider.

The report of the committee on home missions read by Rev. Dr. Hugh K. Walker, chairman, contained numerous recommendations, one of the most important being an earnest commendation of the proposed anti-polygamy amendment to the constitution of the United States. In this connection the report states: "We earnestly urge upon congress the importance of prompt action in this matter, so that such an amendment may be submitted to the states before the Mormons gain the balance of political power in any additional states of the Union."

The committee also recommended that the church be asked to contribute during the year not less than \$850,000, of which \$500,000 is to be used in evangelistic work; that as a means to secure this amount and to signalize the centennial year of the board the presbyteries be requested to ask churches for two congregational offerings to the board; that churches, families and individuals be requested to make gifts for special objects such as for furnishing a minister or a teacher; that the moderator appoint a committee of 30 to arrange for the proper observance of the one hundredth anniversary of the board of home missions during the general assembly of 1902.

Elder Banning precipitated a spirited debate on the report of the committee on home missions. He took exception to the report that 2,013 churches do not contribute directly to the home mission board. He contended that if a presbytery or synod supported its own home missions its work was equal to that of other presbyteries and synods which contribute directly. Rev. Dr. James A. Vance of Chicago protested against what he regarded as an aspersion on the presbyteries which contributed to their home missions. Numerous other commissioners were heard for and against that portion of the report and Dr. Walker ended the discussion by agreeing to make any amendment that any commissioner might offer. The objectionable sentence was finally eliminated and the report adopted.

### Morgan's Latest Purchase.

Paris, May 21.—J. Pierpont Morgan has bought outright the celebrated collection of emblems gathered together during the last 23 years by M. Manheim of Paris. "It is perfectly correct," said Mr. Manheim when told that the sale had been reported about Paris. The collection is composed of antiques, works of art, specimens of the middle ages and Renaissance. There are 229 numbers, but Mr. Morgan's acquisition is somewhat larger, for he insisted on adding to his collection a magnificent service of Sevres porcelain and a white marble clock by Falconnier.

### Mrs. Gage's Remains.

Chicago, May 21.—The remains of Mrs. Lyman J. Gage arrived from Washington accompanied by Secretary Gage, his daughter, Mrs. Pierce, Mrs. Gage's sister, Mrs. Ilene of Yonkers, N. Y., D. H. Burnham and Rev. N. D. Hillis, who officiated at the services in Washington and who will conduct the rites at the grave in Rosehill cemetery. The body was temporarily placed in the receiving vault at Rosehill. The services Wednesday will be strictly private.

Pittsburg, May 21.—The annual wage conference of the Flint Glass Bottlers' association and the American Flint Glassworkers' union began here. The conference will cover the wages for the prescription blowers and gatherers and the production and working hours. The workers, it is said, will ask for a slight advance in wages, but the manufacturers say definitely there will be no increase.

### A SPLENDID TICKET.

The official canvass of the returns from last Saturday's primary election was made Tuesday, and the result is given elsewhere to-day. But few changes were made from the figures heretofore published by the BULLETIN.

The ticket thus selected by the Democracy of the county can be found at the head of our editorial column to-day. It is conceded on every hand that the ticket is a splendid one, from top to bottom. This is not intended in any way as disparaging to the unsuccessful candidates, for any ticket selected from the list of aspirants voted for last Saturday would have been a strong one. The nominees are well distributed geographically, and are men thoroughly qualified in every way for the positions to which they aspire.

It is a ticket that commands the undivided support of the Democracy of Mason County, and that means a decisive victory next November.

### BIG TAX SUIT.

The State Seeks to Recover \$135,000 From the U. S. Trust Company of New York.

The Commonwealth of Kentucky is plaintiff in an action filed in the Franklin Circuit Court in which it seeks to recover from the United States Trust Company, of New York, holder of the bonds of the Illinois Central Railroad bridge at Cairo, the sum of \$135,000, alleged to be due for State taxes thereon from 1892 to 1899, inclusive, and penalty for failure to pay when due. Of this amount \$12,500 is for taxes and \$22,500 for penalty. The Illinois Central Company is also named as defendant in the petition and an attachment and order of court asked directing it to pay into court the sum of \$75,000, due the defendant Trust Company as interest on the bonds on June 1st next, and so much of a like sum due on December 2nd next as will satisfy plaintiff's claim.

The petition was filed by Attorney John W. Ray, who was employed by Attorney General Breckinridge to assist him in the prosecution of the case. The legal questions raised in this case are new to the courts of the State and their decision is of much importance.

The petition follows the action of the Auditor's agent of Ballard County, where the property is located, who some months ago took steps to have the bonds properly listed for taxation for past years, the holders having failed to do so. The agent filed information in the County Court of Ballard County and that court adjudged that the property was subject to taxation for the years from 1892 to 1899, inclusive, and also adjudged its value to be \$3,000,000, and ordered that it be listed and assessed as omitted property and that fact certified to the Auditor for collection.

Wm. Yarnell, who assaulted and seriously injured the wife of Asher Thatcher a few weeks ago, was given a hearing Tuesday before Squire Grant and was held under bond of \$150 to answer at the next term of court.

## RURAL DELIVERY.

### Move on Foot To Establish Route in This County.

Over Lexington, Sardis, Murphysville, Washington and Hill City Pikes.

Postmaster General on the Service.

A move has been inaugurated to have the Postoffice Department establish a rural free delivery route in this county.

A year or so ago, it was announced that through the influence of Judge Pugh, then our Representative in Congress, Mason County had been selected as one of the counties in this district for a test of this new branch of the postal service, but for some cause or other the matter was dropped, and that was the last ever heard from the Judge on the subject, so far as Mason was concerned.

The gentlemen who have now interested themselves in the subject and who, by the way, live on the proposed route, are going about the matter systematically, and will circulate a petition shortly, to secure the necessary 100 signatures. The Government will establish no route unless there are at least 100 families to be supplied, and who will agree to erect suitable mail boxes at the entrance to their homes. These boxes, however, cost from \$1 to \$3, are provided with locks and are protected same as any other mail boxes. Another requirement of the law is that the route must be at least twenty miles long.

The route selected by the gentlemen interested is from Maysville out the Lexington pike to the junction with the Sardis pike, thence along the Sardis pike to the Murphysville, thence to Murphysville, thence back to Maysville, over the Murphysville and Washington and the Hill City pikes, making a route about thirty miles long.

If the petition should be granted it would enable families along the route to receive their mail daily and thus bring a large portion of the county in closer touch with the busy world.

In his last annual report, Postmaster General Smith said:

"Rural free delivery has now been sufficiently tried to measure its effects. The immediate and direct results are clearly apparent. It stimulates social and business correspondence, and so swells the postal receipts. Its introduction is invariably followed by a large increase in the circulation of the press and of periodical literature. The farm is thus brought into direct daily contact with the currents and movements of the business world. A more accurate knowledge of ruling markets and varying prices is diffused, and the producer, with his quicker communication and larger information, is placed on a surer footing. The value of farms, as has been shown in many cases, is enhanced. Good roads become indispensable, and their improvement is the essential condition of the service. The material and measurable benefits are signal and unmistakable.

"But the movement exercises a wider and deeper influence. It becomes a factor in the social and economic tendencies of American life. The disposition to leave the farm for the town is a familiar effect of our past conditions. But this tendency is checked, and may be materially changed, by an advance which conveys many of the advantages of the town to the farm. Rural free delivery brings the farm within the daily range of the intellectual and commercial activities of the world, and the isolation and monotony which have been the bane of agricultural life are sensibly mitigated. It proves to be one of the most effective and powerful of educational agencies. Wherever it is extended the schools improve and the civic spirit of the community feels a new pulsation. The standard of intelligence is raised, enlightened interest in public affairs is quickened and better citizenship follows.

"Rural free delivery is plainly here to stay, as those who enjoy its advantages will not consent to surrender them, and every new route creates a demand from contiguous territory for the same privilege. We are then confronted with the problem of gradually extending the delivery service over the whole area of the country where it is physically feasible or where the population is not so sparse as to make it unreasonable. A project of such comprehensive and colossal character may seem formidable and deterrent; but while its difficulties are not to be underestimated, they are shown, when examined in the light of practical tests, to be far from insurmountable. We are now carrying the postoffice to the door of 31,000,000 of people massed in towns and cities. The task before us is the more complicated work of carrying the postoffice to the door of about 21,000,000 scattered over 1,000,000 square miles of territory. By the end of the current fiscal year we will see about 4,300 routes in operation, carrying the mail daily to the doors of not less than 3,500,000 residents of the rural districts.

Wm. Yarnell, who assaulted and seriously injured the wife of Asher Thatcher a few weeks ago, was given a hearing Tuesday before Squire Grant and was held under bond of \$150 to answer at the next term of court.

### The Real Thing.

[Bourbon News.]  
Quite a peculiar incident in a business way happened to Charley Cook (Little Cook) the other day, and he has not yet recovered from his astonishment. A stranger walked into the grocery on Friday and said he was from Flemingsburg. A friend of his had several years since stolen a half dollar from Mr. Cook, but since that time there had been a revival in Flemingsburg, his friend was one of those who had "got religion," and he could not sleep at nights until he had restored to its rightful owner the half dollar he had stolen. Charley scented a gold brick, and taking the half he bit it, rang it, tried it with acid, and finally reluctantly put it in the drawer, and then went out and "set 'em up" to the stranger to the extent of a dollar. He is now trying to find out when the next revival meeting will be held in Paris.

## UNDER THE HEAD OF

# CURTAINS!

Quite a chapter might be written that would prove of interest now. We told you last week of Rope Portieres. Many came, all bought. However a few curtains remain, less than a dozen, but you may be a proud possessor if you're prompt. \$1.69 Portieres for \$1 is not a daily occurrence so take the chance at its rise.

### Tapestry Portieres.

Heavy double face, reversible, full length and width, handsome fringe with large tassels, new, stylish patterns, six different color schemes. A pair \$24 to \$5.

### Sample Lace Curtains.

No space to mention them before—they almost sell too fast—we can hardly supply demand. A new lot. White, cream, ecru. Regular width, length two yards. In regular length they'd sell for \$3 1/2 to \$7 a pair. These short lengths 29c. and 35c. each. For door, sash and small window curtains.

### Nottingham Curtains.

Fifty designs, all full 3 1/2 yards long, over-lock stitched edges. At whatever price every curtain an unexcelled value. 50c. to \$10 a pair.

## D. HUNT & SON.

# Ice Cream! Ice Cream!

Having made arrangements with two of the largest creameries in the Ohio Valley for their exclusive product, we are in a position to furnish you with ICE CREAM in any quantity, from one quart to as many gallons as you would like. Our capacity is practically unlimited.

##### FOR CHIEF OF POLICE.

# THE BEE HIVE

Is your wife happy? No! We will tell you how to make her so. That's our business. May be she is cleaning house, and to think that old worn out carpet has to be put down again. It's enough to make any wife unhappy. Give your wife a surprise. Tell her to go down to THE BEE HIVE and select one of those new Carpets, just arrived. Then when you have finished your day's work think of that charming and happy wife and the pretty home to welcome you. That's life. Why didn't you think of that before? And if you really want to make love we can furnish you with Window Shades as low as 10 cents—good enough to keep your neighbors' eyes out; but the one we have in mind is the lace insertion with fringe edge that all stores ask 65c. Our price is 39c. Ten styles of Curtain Poles to select from, 10c. to 50c., and a nice Silkolene Curtain at 10c. per yard, and now the room's complete. Waking up in the morning in such a room is as good as a dream. Carpet, twenty-four yards, \$6; Curtain Poles, 30c; Window Shades, 20c.; Silkolene Curtains, \$1. Total, \$7.50. Now do you think your wife is asking too much?

## CHILDREN'S SAILOR HATS

All styles—39c., 45c., 69c., 98c. A new line of Percales at 12½c. Broad stripes are all the go. Better see our line before buying.

## FRINGE QUILTS

For iron or brass beds, at \$1.49, worth \$2. You can have a spring dress without embroidery or lace. That's the reason we carry such a large assortment.

## SHIRTS

For men and boys. Madras box plait fronts, Men's 59c.; Boys' 50c. Some people would sell them for \$1. We think they are worth 75c.

An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for coughs, colds and all throat and lung trouble. Guaranteed bottles 50c. and \$1 at J. Jas. Wood & Son's drug store.

## FIELD DAY TO-MORROW.

Go Out to the Ball Park and See the Games in the Afternoon.

Remember the field day at ball park to-morrow (Thursday) afternoon at 2:30 o'clock. The ladies are not only invited, but are expected to be present on this occasion. Indeed the members of the Athletic League will not consider the event a success unless the ladies are present.

The basket ball game will be one of the most interesting ever played in the city, both teams being made up of picked men; while the courts will be forty by fifty feet. The Juniors also will interest many. Below is the program:

Three standing broad jumps.  
Running high jump.  
One hundred yard run.  
Running hop, step and jump.  
Junior basket ball game.  
Senior basket ball game.

Small admission of 15 cents will be charged, and it is hoped there will be a large crowd present.

He Is a Wonder.

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from an aching back, in agony if he tried to stoop—all caused by chronic kidney trouble, that no medicine helped until he used Electric Bitters and was wholly cured by three bottles. Positively cures backache, nervousness, loss of appetite, all kidney troubles. Only 50c. at J. Jas. Wood & Son's drug store.

## Arbuckles' Roasted Coffee

Is prepared by an individual firm who made their reputation many years ago; who intend to maintain it as long as the people appreciate good, pure coffee, at an honest coffee price. If others imitate Arbuckles' coffee, that's their business; if you prefer an imitation coffee, that's your business. But you'll find that it's economy to pay a cent a pound more for Arbuckles'. Ask the grocer for Arbuckles' Roasted Coffee, the original package coffee, and refuse imitations under any other name.

With each package of Arbuckles' Coffee you buy a definite part of some useful article (see list which each package contains). The article is yours whenever you present a certain number of signatures from the wrappers at our Notion Dept. Look for the list.

## NEIGHBORHOOD NEWS.

Items of Interest Contributed by Our Country Correspondents.

SPRINGDALE, May 21.—Charles R. Vawter, who graduates from the Bible College at Lexington on June 11th, has accepted a call to some church in Tennessee and will go immediately on leaving school. In the career of this young man are seen the possibilities of young men to rise if they so desire. Young Vawter was born on Cabin Creek, this county, in humble circumstances. His first schooling was in an old log school house which once had been a church house. The seats were very ordinary church pews, the writing desk was a board fastened to one side of the house. He had to cross the creek to reach the school, and often on account of the swollen condition of the creek, or ice, or backwater, he had to go two and one-half miles to cross by the railroad bridge. After he entered the university he had to scratch for his living, earning about half the cost of his living there by odd jobs and living on about half what the ordinary student had. He had to leave school twice on account of sickness, and yet he graduates with high honors, before he reaches the age of twenty-three.

GERMANTOWN, May 21.—Cool weather continues to retard the advance of the gardens.
